Show Your Commitment to Cybersecurity

✓ What is Cyberstar?

The Texas Cyberstar Certificate Program is a voluntary program recognizing public and private organizations that meet criteria for cybersecurity best practices. Requirements are selected by the Texas Cybersecurity Council and the Texas Cybersecurity Coordinator.

✓ Why Get a Cyberstar Certificate?

- Demonstrate a commitment to cybersecurity best practices.
- Be recognized within the Texas cybercommunity and published on the DIR website.
- Obtain certificates and logo for advertising and other external communications.

✓ Who is Eligible?

Texas public and private entities who meet the requirements specified in the [Texas Cyberstar Certificate Program Manual](#) are eligible.

Questions?

Visit the DIR website:

[dir.texas.gov/information-security/
texas-cyberstar-certificate-program](https://dir.texas.gov/information-security/texas-cyberstar-certificate-program)

Contact DIR for assistance:

DIRSecurity@dir.texas.gov

How to Apply:

1. Review the requirements in the [program manual](#).
2. Submit a certificate request certifying compliance with the requirements and providing requested documentation.

There is no cost to submit a certificate request. Certificates must be renewed biennially.

Notes: The program was established by Texas Government Code Section 2054.5181. A certificate does not validate an organization's overall cybersecurity program or its ability to withstand an attempted cyber breach, hack, attack, etc.
