Introduction to Cyber Incident Investigation for Law Enforcement

DIR — Texas Department of Information Resources

TEEX — Texas A&M Engineering — EXTENSION SERVICE

DIR, in partnership with TEEX, is providing a **free 4-hour** asynchronous online course to equip Texas law enforcement with the knowledge necessary to respond to and recognize the types of cybercrimes that they may be called upon to investigate.

Course Overview

- Introduction to Cybersecurity Incidents
- Texas Cybercrime Criminal Offenses
- Response to a Cyber Incident
- Handling Digital Evidence
- Preventing and Recovering from Cyber Incidents

Upon completion of this course, first responder officers will be able to determine if a cybercrime has been committed, conduct the initial on-scene investigation, and recognize and collect appropriate evidence for further investigation.

Suggested Audience

- TCOLE License Holders
- Peace Officers
- Corrections (Jailers)
- Telecommunicators (Dispatchers)
- Non-Commissioned Personnel
- General Public
